

CURRICULUM VITAE

NAME: Mohamed Eid Fawzy
NATIONALITY: Egyptian
STATUS: Married, 2 Children: Monica , Magdy

QUALIFICATIONS AND AFFILIATIONS

F.R.C.P. (London)	M.B. ChB (Cairo)
1983	Fellow of American College of Cardiology
1993	Fellow of European Society of Cardiology
2000	Fellow of Society of Heart Valve Disease

EXPERIENCE

* since 2009 till now	Prof. of Cardiology October 6 th University
2 Oct 02 – 2 Oct 03	Senior Consultant Cardiologist, King Faisal Specialist Hospital and Research Centre, Riyadh, Kingdom of Saudi Arabia
Apr 78 – 2 Oct 02	Consultant Cardiologist, King Faisal Specialist Hospital and Research Centre, Riyadh, Kingdom of Saudi Arabia
Oct 76 - Mar 78	Lecturer in Cardiology, Ain Shams University, Cairo, Egypt
Aug 73 - Sept 76	Senior Registrar, Cardiology, Harefield Hospital and National Heart Trust, Middlesex, United Kingdom
Nov 71 - July 73	Registrar, Cardiology, Harefield Hospital and National Heart Trust, Middlesex, United Kingdom
July 69 - Nov 71	Registrar, Cardiology, Newcastle Regional Cardiothoracic Centre, Newcastle, United Kingdom
Jan 68 - June 69	Senior House Officer, General Medicine, Bensham General Hospital, Gateshead, United Kingdom

Honors: Honorary Associate Professor, Department of Internal Medicine, College of Medicine and Medical Sciences, King Faisal University, Dammam

Member:
Fellow of American College of Cardiology
Fellow of European Society of Cardiology
Fellow of Society for Heart Valve Disease

- Invitations:**
- Invited to perform mitral balloon valvotomy using the Inoue technique at the Cairo University, Egypt, 4-5 January 1992.
 - Invited Speaker - Grand Round at Johns Hopkins Hospital, USA in March 2000 on "Mitral Balloon Valvotomy in 500 Patients: 10-year Follow-up"
 - Invited Speaker - Maastrich University, Holland in August 2000.
 - Invited Speaker – Innsbruck University, Austria in 6 September 2007. State of the Art lecture in Mitral Balloon Valvuloplasty.
 - Invited Speaker – European Congress of Cardiology, Vienna 2007 on a symposium catheter treatment of mitral valve disease. The title of my talk was "17 years follow-up result in mitral balloon valvuloplasty in 520 patients."

External reviewer to the following journals:

1. Journal of the American College of Cardiology
2. American Journal of Cardiology
3. Heart (British Heart Journal)
4. Journal of the Heart Valve Disease
5. Catheterization and Cardiovascular Interventions

EXPERIENCE

I have been doing invasive cardiology since July 1969. It was then, diagnostic catheterization until 1984 and I have already performed over 10,000 catheterization of various cardiac diseases.

I started percutaneous coronary angioplasty since 1984 subsequently, in 1992 by stenting. I performed more than 1000 PTCA with or without stenting over the last 20 years.

I started the program of balloon valvuloplasty and angioplasty in 1985 and modified the technique.

A. Pulmonary Balloon Valvuloplasty – started 1985

I did the largest series in adult over 100 pts without morbidity and mortality and I published several articles in renowned peer review journal. The last one was in American Heart Journal 2007
17-year follow-up in 2007.

B. Coarctation Balloon Angioplasty:

Started 1986 – I did the largest series in adult over 65 pts, follow-up over 18-year with no mortality or morbidity. I have 4 published articles in American Heart Journal, Journal of American College of Cardiology March 2004. The last 2 articles became landmark to the extent it was published in the Year Book of Medicine 2000, and the Year Book of Vascular Surgery 2001. I was invited as guest speaker in European Congress of Cardiology 1995 in Amsterdam on Symposium of Coarctation Balloon Angioplasty.

C. Mitral Balloon Valvuloplasty:

Since 1989, KFSH had the largest single center of database of mitral balloon valvotomy; we have excellent result in over 580 patients, no mortality or major morbidity and published several seminal papers on MBV.

- D.** I am still doing large load of clinical cardiology and I do 3 clinics/week and see most of the VIP with cardiac problem at KFSH and get involved in their care. I also teach other cardiologist the technique of pulmonary balloon valvotomy, coarctation balloon angioplasty and mitral balloon valvuloplasty.

E. I am also engaged in teaching: on Saturday Ward Round; teaching residents and fellows and assistant clinical cardiology and also giving grand round in the Departments of Cardiovascular Diseases and Medicine.

F. Research

Abstracts: I am a regular speaker in the following meetings held annually: American College of Cardiology Meeting, European Society of Cardiology, Egyptian Society of Cardiology, Saudi Heart Association. I presented 173 abstracts in these international meetings over the last 30 years.

Publications: I published 92 papers in renowned peer review journals.

LECTURES & INTERVIEWS

1. Balloon angioplasty for adult coarctation and recoarctation. Invited speaker on symposium on "Coarctation of the Aorta". 17th Congress of the European Society of Cardiology, 20-24 Aug 95, Amsterdam, Netherlands.
2. Coarctation balloon angioplasty, long term results. Nov 95, ACCEL Interview.
3. Regression of pulmonary hypertension after balloon dilatation of mitral stenosis. Medical Grand Rounds, 26 Feb 96, KFSH&RC.
4. Mitral balloon valvotomy in 300 consecutive patients using Inoue balloon technique, influence of mitral valve anatomy on the immediate and long term results. 8 May 96, ACCEL Interview
5. Ten years results of coarctation balloon angioplasty in Adults. Department of Cardiovascular Diseases Grand Rounds, 7 October 1998, KFSH&RC.
6. Long-term results of pulmonary balloon valvuloplasty. Symposium on Heart Valvular Disease at

Military Hospital in Jeddah in 1998.

7. Invited speaker in Johns Hopkins University, Baltimore, USA on 15 March 2000. Effect of mitral morphology on the immediate and long-term results (10 years).
8. Mitral balloon valvotomy in 500 patients: Immediate and long-term results. Symposium on Interventional Cardiology in April 1999 at Erfan Hospital, Jeddah.
9. Mitral Balloon Valvotomy Experience with 500 Cases. Department of Cardiovascular Diseases Grand Rounds, 5 April 2000, KFSH&RC.
10. Invited speaker at Maastricht University, The Netherlands in August 2000. Mitral balloon valvotomy: 10-year follow-up.
11. Pulmonary Balloon Valvuloplasty for Pulmonary Valve Stenosis in Adults: Long-term Follow-up (15 Years). Department of CVD Grand Rounds, 24 January 2001.
12. 15 Years Follow-up After Pulmonary Valvuloplasty in Adult Patients. Department of Medicine Grand Rounds, 21 January 2002.
13. Do we need to stent a discrete coarctation of the aorta? 15-year follow-up of coarctation balloon angioplasty. Department of CVD Grand Rounds, 25 February 2004..
14. Long-term clinical and echocardiographic follow-up results of 521 patients undergoing mitral balloon valvotomy using Inoue balloon and predictor of long-term outcome. Department of CVD Grand Rounds, 3 March 2004.
15. Regression of severe infundibular stenosis and severe tricuspid regurgitation. Department of CVD Grand Rounds, 7 July 2004.
16. What is the best treatment for patients with severe MS and associated with severe TR. Department of CVD Grand Rounds, 21 July 2004.
17. Pitfalls in diagnosis of endomyocardial fibrosis. Department of CVD Grand Rounds, 18 August 2004.
18. Do we need to stent discrete coarctation of the aorta: 16-year follow-up results of balloon coarctation angioplasty. 2nd Annual Symposium: Congenital Heart Disease in the Adult on 12-13 October 2004 in Jeddah organized by KFSHRC-Jeddah.
